Art Unit: 3682

Applicant's election without traverse of Group I in the reply filed on November 23, 2005 is acknowledged.

Claims 6-15 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Anakasugi et al.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 3-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nakasugi et al.

Nakasugi et al discloses that for the filtering function associated with the claimed "dust catcher", that "any other member may be used provided that it has a filtering function" (Col. 4, lines 47-48). As such, a filter member of synthetic resin, with inherent through holes, acting as an electret filter, would have been obvious to one of ordinary skill in the art at the time the invention was made.

Art Unit: 3682

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
